

SPORTFIX® Soft kerbs

Used for edging sand pits, sand traps, shot-putting facilities and other sports areas. Rubber cushioned capping minimises the risk of injury to athletes.

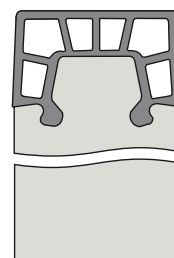

SPORTFIX Soft kerbs for:

- jumping pits
- sand pits
- definition of outside edge of a running tack
- permanent delineation of separate areas in sports grounds

At a glance

- available in black and white
- different heights and corner elements available
- rubber cushion made of EPDM and air cushions inside to minimise the risk to athletes
